Access to Holte API using tokens

To access API, you need to generate API token for your user. To get token please log into HoltePortalen first. Please go to settings next:

In settings please go to „API tokens” tab:

On API settings tab, please enter name for new token (e.g. „Your application name”) and expiration date:

Settings API tokens

Name VisualAdministration

Expiration date 05.02.2022

Create new token

Name	Expiration date
------	-----------------

Please click „Create new token” and you’ll see its value:

Settings API tokens

Name

Expiration date 05.02.2022

Create new token

Please copy this token. It will never be displayed again.

a15fd6c94f244cd4ba6b68dd411646f0275f4a8c01bb4dd892486a12b0e4c6e7

Name	Expiration date
VisualAdministration	05.02.2022

Change expiration date Delete

Please store this value. It won’t be displayed again.

To send API requests, please set „X-Holte-Token” header value in request:

GET {apihost}/project

Params Authorization Headers (10) Body Pre-request Script Tests Settings

Headers 8 hidden

KEY	VALUE	DESCRIPTION
